

Pre-construction orders accepted now for engraved Woodland Park Pavers

“**A** phased plan for improvements at Woodland Park includes rest room facilities with shelter area, replacement of play-ground equipment, relocation of the basketball court, extended walking trails and savannah restoration. An enlarged permeable paved parking area will increase available parking and improve auto access during peak field usage. The expanded walking trails will improve pedestrian site circulation. The four ball diamonds and soccer fields will remain as they are; and a turnaround in the southeast corner will allow for easy drop-off.

Engraved pavers may be ordered for the seating area.

Rain garden and grass detention, native planting areas, permeable porous pavers and asphalt for the parking lot, and (gabion) seat walls from recycled material will enhance the environmental quality of the site.”

—from the Board of Park Commissioners
