#### DEERFIELD PARK DISTRICT

### MEDICATION DISTRIBUTION POLICY

#### **Statement of Purpose:**

The Deerfield Park District discourages dispensing prescription medicine to children participating in park district programs; leaving the primary responsibility to parents and guardians to dispense prescription medication to children. However, the Deerfield Park District recognizes it may be necessary in certain circumstances for children participating in park district programs to take prescription medication during program hours.

## **Limits of Assistance**

The park district is not a health care provider and does not hold itself out as such. Park district responsibilities are limited to accepting medications, and making reasonable efforts to provide the prescribed doses at the prescribed intervals to the best of its ability.

Direct responsibilities do not include direct administration of medication including measuring of dosage or preparation of medication beyond that of counting tablets or pouring liquids into a pre-measured container made specifically for that use. Any medications not delivered in original packaging or in packaging not easily read will be rejected by the park district. Written instructions must be clearly marked, specifying dosage, method of administration and discontinuance date.

#### **Request Procedure**

All requests by parents and legal guardians for dispensing prescription medications to children participating in a park district program should be directed to the Program Supervisor to determine the feasibility of the park district complying with the request. If possible, this request should be completed prior to registration for the program. The Program Supervisor is the approval authority for allowing children requiring the administering of prescription medications into a park district program. A written order and waiver of liability from the parent and/or guardian requesting the administration of medication by park district staff is required prior to medication being dispensed.

Approved by the Board of Park Commissioners	: _3-21-96
Revised by the Board of Park Commissioners:	10-9-97, 9-20-01

## Deerfield Park District Dispensing of Medication Procedures

## I. Parental Procedures and Responsibilities

The parent/guardian **must**:

- 1. Complete the Permission to Dispense Medication/Waiver and Release of All Claims form;
- 2. Complete the background information on the *Medication Dispensing Information* form;
- 3. Have physician complete and sign the *Medication Dispensing Information* form:
- 4. Deliver all medication to the agency office in the original prescription bottle or in clearly marked containers which include the person's name, medication, dosage, and time of day medication is to be given;
- 5. Verbally communicate with agency staff regarding specific instructions for medication.

## II. Staff Medication Dispensing Procedures

Agency program staff must:

- 1. Ensure that the Permission and Waiver to Dispense Medication Form and Medication and Dispensing Information Form are fully completed and signed by the parent/ guardian and physician prior to the dispensing of any medication;
- 2. Ensure that only authorized staff accept medication which may include the executive director, superintendent of recreation, safety coordinator, program coordinator, recreation specialist, registrar, secretary or other designated staff;
- 3. Verbally communicate with the parent or guardian regarding any specific instructions regarding the dispensing or storage of the medication. It is also the responsibility of the authorized staff who receives medication to properly store medication in a locking cabinet or in a refrigerator as needed. It is extremely important that stored medication is out of the reach of other patrons and particularly children.
- 4. Obtain copies of all waivers, internal procedures, medical information forms, and medication logs when obtaining the prescription medication to be transported to the program site. All medication stored at a program site must be secured and only available to authorized program staff.

- 5. Program coordinators responsible for dispensing medication must strictly follow all written instructions on the medical information form, individual dose envelopes, and any information contained on original prescription container labels. In the event that conflicting dispensing information exists, medication should not be administered until the parent, guardian, or physician are reached by phone to obtain specific instructions.
- 6. Unless otherwise arranged, only paid and trained agency staff will be allowed to dispense medication.
- 7. Agency staff responsible for dispensing medication will fully complete the medication information contained on the medication log form. Medication dispensing logs should be completed until medication dispensing has ceased and completed medication logs should be turned into the agency's office and kept in a permanent file for at least three years at the conclusion of the program.

## **Medication Dispensing Information**

This form must be completed for each program session or when medication changes.

## FOOD ALLERGY & ANAPHYLAXIS EMERGENCY CARE PLAN

#### EPIPEN® (EPINEPHRINE) AUTO-INJECTOR DIRECTIONS

- 1. Remove the EpiPen Auto-Injector from the plastic carrying case.
- 2. Pull off the blue safety release cap.
- 3. Swing and firmly push orange tip against mid-outer thigh.
- 4. Hold for approximately 10 seconds.
- 5. Remove and massage the area for 10 seconds.

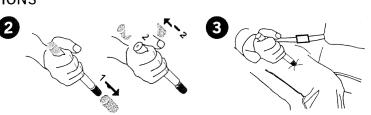

## AUVI-Q™ (EPINEPHRINE INJECTION, USP) DIRECTIONS

- 1. Remove the outer case of Auvi-Q. This will automatically activate the voice instructions.
- 2. Pull off red safety guard.
- 3. Place black end against mid-outer thigh.
- 4. Press firmly and hold for 5 seconds.
- 5. Remove from thigh.

#### ADRENACLICK®/ADRENACLICK® GENERIC DIRECTIONS

- 1. Remove the outer case.
- 2. Remove grey caps labeled "1" and "2".
- 3. Place red rounded tip against mid-outer thigh.
- 4. Press down hard until needle penetrates.
- 5. Hold for 10 seconds. Remove from thigh.

OTHER DIRECTIONS/INFORMATION (may self-carry epinephrine, may self-administer epinephrine, etc.):

Treat the person before calling emergency contacts. The first signs of a reaction can be mild, but symptoms can get worse quickly.
